

W6COW

Don, NK6A , Alan, AA6DW

County Expedition to Santa Barbara County

Rig: K2, 100W with voice keyer
Antennas: 2 element Yagi set up for 20M
G5RV, 40M dipole and Cobweb

Don, NK6A, operating CW and Alan on the right operating SSB. Powering up my Samlex switching power supply resulted in two blown caps. Heil Proset had a major failure of the right ear piece breaking off. We had spares.

Alan was learning contesting SSB style and using N1MM. We made 500 Q's sending SBAR, low power. 345-CW. 155-SSB. 55 Multi for a total score of 73975
