- Major Problem: Pre-booked camp site was closed for renovation. Scrambled around Friday afternoon trying to find alternate site. Got lucky.
- Kept the gear/operating plan simple to reduce the potential for problems. Bands: 20, 40, 80 only.
- Gear, laptops, N1MM, operators all worked well together.
- Operated Saturday only. 377 Q's, 55 mults, score 49,940, new MMLP record for COLU. Missed KY, MS, MR for the sweep.
- Will try to step it up in 2019!
